# Economics and Mathematics, BA

**Academic Plan:** ECOMATH-BA  
**Program Code:** 36853

This degree map is a term-by-term sample course schedule designed to assist you and your advisor in planning your 4-year academic path to graduation with an Economics and Mathematics Degree. You and your advisor will use it, along with the program of study for your major (found in the Lehman Bulletin for your admission year) and Degree Works (degree audit system), to formulate your customized plan.

No more than two courses in one discipline may be used to satisfy Flexible Core requirements.

These are variable topics courses, where each section treats a special topic. Pre-requisite: You must have achieved 60 credits and declared your major. Integration Courses: LEH 352: Studies in Literature, LEH 353: Studies in Arts, LEH 354: Studies in Historical Studies, LEH 355: Studies in Philosophy, Theory & Abstract Thinking (LEH 351: Studies in Science & Applied Perspectives, is NOT a College Option for this Major).

Major Elective Courses- Choose two courses from following list: ECO 305, ECO 306, ECO 311, ECO 322, ECO 324, ECO 326, ECO 331, ECO 338 and ECO 431.

We strongly recommend clustering 12-15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. Check out more information on Minors or Certificates with your advisors.

If you intend on registering for MAT 349- Operations Research; it has a pre-requisite of CMP 167

NOTE: Writing Intensive Sections: Complete 4 sections designated as writing-intensive, 3 prior to earning 60 credits and 1 following. These sections may be searched by class attribute and are offered in General Education, major, minor and elective courses.
