Mounting the Kodak Zi10 Camera on a Tripod

Extend the legs of the tripod > Open and place on the floor or on a classroom desktop > secure clips.

**Connect the camera:** Place the camera’s tripod socket (found at bottom of the camera) on the screw on top of the tripod.

> Turn the knob to tightly secure the camera to the tripod

**To extend the head of the tripod so it is taller (if needed):** Turn knob at the base of the head to the right > Pull to extend > Turn the knob to the left to lock it.
