

**DEPARTMENT OF NURSING**  
**CURRICULUM INFORMATION & PATTERN**  
**BACHELOR OF SCIENCE PROGRAM IN NURSING**  
**REGISTERED NURSES (Licensed in New York State)**

The upper division nursing program, which leads to a B.S. degree, is designed to prepare for professional nursing practice and provide a foundation for graduate study in nursing. The program fulfills the requirements of the New York State Education Department, and is accredited by the Commission on Collegiate Nursing Education.

The program is a 37.5-credit major of the total 120 credits required for graduation. Independent study courses and honors projects are available to qualified students.

The program is designed for completion in 2 academic years of full-time study. The Department recommends that students complete their distribution and prerequisite courses prior to admission to the nursing program.

The clinical laboratory sections of the nursing courses are conducted in the diverse and culturally rich clinical facilities in the Bronx, Westchester, Manhattan and other surrounding communities.

Graduates of the program will have gained the knowledge and experience to function independently as well as collaboratively with other members of the health team. Graduates will have sharpened their skills in critical thinking and have the ability to provide competent and compassionate care to assist individuals and families in achieving maximum levels of health.

RN applicants to the Lehman College baccalaureate nursing program must first apply for admission to the College and, after acceptance, apply to the Department of Nursing for admission.

Graduates of Associate Degree programs should follow directions for transfer students when applying to the college.

Graduates of hospital (diploma) schools of nursing who have not earned previous college credits should follow directions for new applicants to the college. Graduates of diploma nursing programs are encouraged to take the Excelsior College (formerly Regents College) exams to earn advanced standing credits in Adult Nursing, Maternal and Child Nursing and Psychiatric Mental Health Nursing to earn advance standing credits.

It is recommended that all RN students seek advisement in the Office of Academic Advisement, Shuster Hall, Room 280, in addition to advisement in the nursing department. Registered nurses may pursue either full-time or part-time study.

## **PREREQUISITES**

1. Current Licensure in New York State.
2. Sixty (60) college credits with a grade point average of 2.5 or greater; or the associate degree in nursing from the City University of New York.
3. Official transcript with evidence of a college course in chemistry, or chemistry taken in a state approved nursing program (or its foreign equivalent), or successful completion of the following courses at Lehman College:

CHE 114: Essentials of General Chemistry: 3 Credits

CHE 115: Essentials of General Chemistry Lab: 1.5 Credits

4. Foundation Course\*

HIN 268: Human Growth and Development: 3 Credits (or equivalent course which covers growth and development through the life span.)

## **NUR Courses For Registered Nurses:**

The distribution of courses and credits to be earned by all R.N. majors is as follows:

### **In Foundation:**

HIN 269: Analysis & Action for Community Health: 3 Credits

### **In Nursing Courses:**

NUR 300 Nursing as a Human Science: 3 Credits

NUR 302 Ways of Knowing in Nursing: 3 Credits

NUR 400 Professional Nursing Practice: 6 Credits

NUR 406 Clinical Decision Making: 3 Credits

NUR 408 Trends & Issues in Nursing & Health Care: 3 Credits

NUR 409 Therapeutic Intervention IV: 6 Credits

NUR 410 Professional Nursing Management: 3 Credits

\*Some students may qualify to earn credits for the Human Growth and Development course through validation examination. Students must seek advisement in the Department of Nursing for this process.

## **COURSE DESCRIPTIONS: RN TO BS PROGRAM**
