Dear Friends,

The Office of International Programs & Community Engagement at Lehman College, City University of New York, is proud to sponsor a program that has truly changed the lives of hundreds of students over the past 13 years! This year, we will host our 6th Annual Global Citizenship Gala at Villa Barone Manor on October 24th, 2019 at 6 PM.

Our annual Global Citizenship Gala is the most important fundraising component of our program. Lehman students must raise 100% of their service-learning immersion and study abroad experience cost, and therefore will be working diligently to seek your support.

AT A GLANCE

The Office of International Programs & Community Engagement educates members of the Lehman campus community on the importance of responsible citizenship through new student orientation, community development programs, service efforts, practical application of knowledge, and an awareness of global issues impacting local communities.

Community-Service Learning: Since 2007, Community Engagement has provided thousands of students with a sense of global citizenship and civic responsibility through volunteerism. Our students volunteer in our local community, nationwide and across the globe. They participate in one-day programs, serve as ongoing mentors and advocate for the rights of underserved populations. Our 1,000+ registered volunteers have saved over $335,709.84* annually in community resources by volunteering for over 11,964 hours of community service.

The Lehman L.I.F.E. (Leaders Involved for Everyone) alternative break community service-learning program supports service opportunities for students by creating awareness of need in communities around the world and fostering action through volunteer work. Our main goal is to increase awareness of issues affecting humanity from our campus to the global society. Students learn at home, take their education abroad and partner with grassroots leaders to help achieve their mission, and bring a piece of their partnership back home to the Bronx to facilitate our own community's development.

Study abroad programs allow our students to further explore their academic interests at an international level, often times, accompanied by our faculty. Currently, Lehman sponsors two short-term international programs. During the summer, Lehman sponsors a history, archeology, and geology faculty-led program on the Island of Crete in Greece and an Irish language program in Connemara, Ireland. In addition to our study abroad and faculty-led programs, Lehman also sponsors a semester/year-long exchange program with Sungshin Women's University in Seoul, Korea. Sungshin offers a great selection of courses that are taught in English and cover various disciplines. Participants are also encouraged to take Korean language and culture courses. Lehman also offers exchanges in France, Singapore, and Japan.

International Student and Scholar Services are dedicated to providing services, programs and activities that facilitate U.S immigration compliance and cross-cultural learning experiences that assist international student and scholars in meeting their academic, personal growth and professional goals.
