

LEHMAN  
COLLEGE

## *The Speech and Hearing Center Celebrates 50 Years!*

Thank you for your interest in becoming a  
***Friend of the Speech and Hearing Center.***

The Speech and Hearing Center relies on the generosity of donors like you. Your gift supports a variety of our speech and language programs specifically treatment and evaluation services for children and adults across the lifespan struggling with speech, language and hearing disorders; and enables us, therefore, to serve the !  
Lehman College Bronx Community and NYC Metropolitan area. !

A unique and highly regarded graduate teaching facility, the Speech and Hearing Center at Lehman College **over the last 50 years** has provided *state of the art* diagnostic and therapeutic services to individuals who have speech, language, hearing, and/or feeding deficits. Speech and Language Services are delivered by graduate-student clinicians under the close supervision of Clinical Educators, who are speech-language pathologists or audiologists certified by ASHA (the American Speech-Language Hearing Association) and licensed by New York State.

The Center also serves as a research laboratory for undergraduate and graduate students and faculty mentors conducting applied clinical research in the areas of auditory perception, brain and language, child language, neuro-linguistics, speech and voice production, and literacy.

Because the Lehman College Speech and Hearing Center is a NO FEE Clinic, your donation provides the main source of sustainable income for our Speech and Hearing Center and not only enables the provision of treatment and evaluation services but supports the purchase of resources and equipment used in treatment for our clients and a variety of training tools, media, and equipment for our student clinicians.

We appreciate our many ***Friends of the Speech and Hearing Center*** including our past and present clients, our undergraduate and graduate students, our Clinical and Academic Faculty, our advocates, and volunteers all of whom contribute to ensuring that our Speech and Hearing Center continues to provide treatment and evaluation services for years to come.

---
