

# Are you up to the Challenge?

## The CUNY Math Challenge

There's Strength in Numbers

Regardless of your major, if you are a matriculated CUNY undergraduate student and enjoy math problems, the CUNY Math Challenge is for you!

### \$1,000 Grand Prize

Sponsored by the Office of Executive Vice Chancellor and the CUNY Institute for Software Design and Development (CISDD) and supported by the Office of the Chancellor, the CUNY Math Challenge seeks to identify and reward CUNY's best math talent. Students are invited to compete for scholarship/fellowship awards ranging from \$100 up to \$1,000.

### How it Works

The first step is to register **now** to prepare for the first online round. You must register by March 21, 2018. The questions for this round will be posted on Monday, March 12, and will be open until Sunday, March 25, 2018. Problems range in difficulty from the "not easy" to "pretty tough." No knowledge of "advanced mathematics" is needed.

Students with the best scores in the first round will be invited to the final round, an in-person exam to be administered on Sunday, April 15, 2018. Approximately 30 qualifying students will compete in the final round for the scholarship/fellowship awards. Winners will be publicly recognized at an event in mid-May.

Register here: <http://math.cisdd.org>

**Deadline for Registration: March 21<sup>st</sup>, 2018**
