Wednesday | March 7 | 5PM

Lehman Art Gallery | Fine Arts Building

Scherezade Garcia is an interdisciplinary visual artist born in Santo Domingo, Dominican Republic and based in New York. In her work she addresses contemporary allegories of history and processes of colonization and politics, which frequently evoke memories of faraway home and the hopes and dreams that accompany planting roots in a new land. Garcia is a co-founder of the Dominican York ProyectoGráfica and she sits on the board of No Longer Empty. She has participated in the S-Files Biennial, the IV Caribbean Biennial, and the Havana Biennial, and her work is in the collections of the Smithsonian American Art Museum, El Museo del Barrio, and Museo de Arte Moderno de Santo Domingo.
