LEHMAN COLLEGE
OF THE
CITY UNIVERSITY OF NEW YORK

DEPARTMENT OF MATHEMATICS AND COMPUTER SCIENCE

CURRICULUM CHANGE

1. **Type of change:** Change of prerequisite, title and note:

2. **From:**

   **CIS 166: Computer Programming for Information Processing.** 4 hours, 4 credits
   PREREQ: 3 years of regents level high school mathematics or MAT 104
   NOTE: Intended for students in accounting or management. Not intended for students in mathematics or computer science.

3. **To:**

   **CIS 166: Computer Programming for Information Processing I.** 4 hours, 4 credits
   PREREQ: MAT 104 or placement by the Department of Mathematics and computer Science
   NOTE: Intended for students in accounting or Computer Information Systems. Not intended for students in mathematics or computer science.

4. **Rationales:**

   **Change in prerequisite:** With the many changes taking place in high school mathematics courses, the term ‘Three years of Regents level high school mathematics’ is not clearly defined. In addition, the students’ high school records are frequently unavailable to departmental advisors. The new prerequisite will clarify (for students and advisors) what is needed as a prerequisite for the course.
   **Change in title:** With the change of CIS 266 to be a continuation of this course, the change in title is appropriate.
   **Change in Note:** The title of the major ‘Computing and Management’ has changed to ‘Computer Information Systems’. Hence, the note is being updated.

5. **Effect outside department:** None

6. **Date of departmental approval:** April 30, 2003
