Educational Leadership
Master of Science in Education

The M.S.Ed. Program in Educational Leadership prepares candidates for positions as School Building Leaders (SBL), with an emphasis on urban leadership, and to fulfill the New York State licensure requirements for SBL. The program unites both the development of schools and the development of educational leaders by preparing individuals who can be catalysts for school change and improved student performance. The program prepares students for positions of leadership (e.g., principals, assistant principals, department chairs, etc.) in urban schools with diverse populations. The curriculum is aligned with the New York State content-area requirements for programs preparing educational leaders, leading to certification as an SBL. The pedagogical content of the courses integrates practice with theory. Extensive field-based experiences, in collaboration with school and community agencies, are a central component throughout this program. The courses emphasize critical thinking, reflection, and problem solving. The M.S.Ed. Program in Educational Leadership is committed to preparing candidates who demonstrate the nine essential characteristics of effective leaders, promoted by the New York State Education Department, and are based, in part, on the School of Education’s Lehman Urban Transformative Education conceptual framework, whose mission is to facilitate the development of competent, caring, and qualified educators.

ADMISSIONS REQUIREMENTS
