

## Advanced Certificate in Media and Information Literacy Education

The Advanced Certificate in Media and Information Literacy in Education is designed for individuals working with learners across educational contexts. Candidates will understand and learn how to apply media and information literacy skills, such as artificial intelligence literacies, design thinking, critical media literacy, etc., to their practice. This advanced certificate program does not lead to state teacher licensure.

### Admissions Requirements

- Official transcripts from all post-secondary institutions attended
- Bachelor's degree or higher from an accredited school
- Two letters of recommendation from your previous or current professors, employers, or professional colleagues
- One-page essay discussing the following question: How will this advanced certificate contribute to your professional goals and advance your knowledge?
- An individual interview with program director
- If educated in a country other than the U.S. review
