<sup>[1]</sup> No more than two courses in one discipline may be used to satisfy Flexible Core requirements.

<sup>[2]</sup> These are variable topics courses, where each section covers a special topic. Take two courses with two different numbers. Pre-requisite: You must have achieved 60 credits and declared your major. LEH 352: Studies in Literature; LEH 353: Studies in Arts; LEH 354: Studies in Historical Studies; LEH 355: Studies in Philosophy, Theory & Abstract Thinking. LEH 351: Studies in Science & Applied Perspectives, is NOT a College Option for this Major

<sup>[3]</sup> Students have the option of enrolling in BIO 183: Human Biology to satisfy the Biological Sciences requirement.

<sup>[4]</sup> We strongly recommend clustering 12- 15 elective credits to obtain a minor or certificate that complements your general and major field of study. The choice of the minor or certificate depends on your interest and should be coordinated with advisors. [See information on available minors and certificates.](#)

***NOTE: Writing Intensive Sections: Complete 4 sections designated as writing-intensive, 3 prior to earning 60 credits and 1 following. These sections may be searched by class attribute and are offered in General Education, major, minor and elective courses.***
